THE BRITISH COLUMBIAN.

NO. 50. VOL. 8.] NEW WESTMINSTER, WEDNESDAY AUGUST 5, 1868. [PRICE 6d. or 12 cts.

The British Columbian.

WEDNESDAY AUGUST 5, 1868.

THE SITUATION.

Perhaps no political event in the history of British Columbia has caused more universal regret than the occurrence of those circumstances calculated, to all human appearance, to postpone the admission of this Colony into the Dominion of Canada. Probably no desire was ever more widespread and deeprooted than that in favor of early admission. On the mainland it may be said to be universal and intense. That those persons filling public situations likely to be dispensed with under a cheaper form of Government, and those people who feel conscious that, under a responsible form of Government, they would stand little chance of holding appointments which could only be filled in strict accordance with the popular will, that such persons should conceive it to be to their interest to oppose and, if possible retard, Confederation is perfectly natural; but it is a question how far people so circumstanced are justified in using their public position, as Members of the Legislature of the country, in furtherance of their personal interests, and to the injury of the Colony for promoting the interests of which they received their appointments and are paid their salaries. To do so savours somewhat of a betrayal of the sacred trust reposed in them. Is it quite in harmony with the oath of office? Nor can these officials seek refuge under the pretext that they will best promote the public interest by delaying Confederation. From the Governor down, it was freely conceded that the immediate admission of British Columbia upon the terms set forth in the Address which was voted down during last Session would be an unquestionable advantage, and leone or two of them were frank enough to admit that the only difficulty in their way was the probable loss of emolument! Thus, then, the officials stand before the colonists in an attitude than which it would, indeed, be difficult to conceive of anything better calculaned to alienate the governed classes from the governing. A not unreasonable care for their own self-interest has led them to stand between the colonists and the realization of their dearest, most fondly cherished hopes. That the false and most unpleasant position occupied by the officials in this respect is to some extent chargeable upon a system which places in the legislature a majority of paid public servants, who are frequently called upon to elect between self-interest and duty to the country, is obvious. When such issues are presented it is scarcely in human nature always to be found exercising that self abnegation which will enable them at all times and under all circumstances to vote *pro bono publico*. This feature of our system is rendered most painfully palpable once a year, in voting the supplies. During the performance of this annual legislative burlesque one witnesses scenes the most humiliating. Is it the salary of a Gold Commissioner, or Stipendiary Magistrate from an interior station which forms the subject of discussion? The House is treated to an essay upon "bacon and beans," and the expense, hardships, and privations to which the recipient is exposed, calculated, if not to extort dollars from an empty treasury, at least to draw tears from a fellow creature. The official, after telling his pitiful and thrilling story, with the help of his sympathising brother officials, votes himself an increase of salary, or, possibly, a special allowance on the ground that "grub has riz." Of course the "claw-me-and-I'll-claw-you" principle is carried out; and each official comes to the rescue of his brother, and thus two-thirds of the Legislature virtually vote the public revenue into their own pockets, the remaining unofficial third looking remarkably helpless and exceedingly foolish. The official vote and, it is to be feared, subsequent official wire-pulling are not the only obstables presented to the early extension of Confederation to the Pacific. It is a lamentable fact that there are those high in authority at home who would not appear to be altogether above doing a stroke of private business in their public capacity—making a faithful discharge of official duty subordinate to private interests. Had the Colonial Office authorities been altogether free from the contaminating influence of "rat skins" the flag of the young British American nation would ere now have been waving on the great continental watershed, and British Columbia would be so near admission that no action on the part of our own officials could retard its entrance. It remains to be seen how Canada will act in respect of the attempt on the part of the Imperial authorities to stultify their own act and forever mar, if not absolutely destroy the great Confederation scheme, by fastening upon the very vitals of the territory, in perpetuity and in an aggravated form, that mighty vampire created by Charles the profligate. Should the Imperial authorities persist in this great and most fatal wrong, and should the Canadian authorities have to succumb, then must we, cruelly cut off from all hope of ever enjoying any practical connection with Britain the elder or Britain the younger, look out for new connections, and endeavor to form fresh relationships as best we may. One thing it certain; we cannot long continue in this state of weak isolation and cold neglect.

NEWFOUNDLAND ORATORY. — The Charlottetown, Prince Edward Island, *Patriot*, preserves the following address of a member of the Newfoundland Assembly, respecting the Governor's salary:—"Mr. Brennan was surprised that any man would sustain such a salary when it was not wanted. A Governor having £2000 could not pay his own clerk without making a colony do so. The Governor of New York had about £1000 a year, and yet governed one million of people. A Governor having £2000 a year could not write a few letters to her ladyship the Queen without having a Secretary to do so. A man ought to be ashamed of himself to support such a thing. When 18,000 people were at this moment in want of bread; and there will be 25,000 before the 25th day of May. Oh God, forgive me at this blessed moment, but it is enough to make me curse and swear. What do these gentlemen care, who are bursting from eating roast beef and plum pudding? All they did was to put skates on their young daughters, demoralizing the young ladies of the country. It was shocking to see the young men a buckling these skates around the young women's feet. He had often heard that she stoops to conquer, but begor, it was the young men now that stooped to be conquered. It was a disgrace to any country It was most glaring conduct."

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only simply and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WARDNER, Madrid, N. Y."

"* * * Then will send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, ASA CURRIN, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED *over every cork.*

Sold by all Druggists, Grocers and Dealers throughout the world.

Agents for California and Nevada.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF & WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, FRESH CUTS OR WOUNDS,
SWELLINGS,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of O. W. Westbrook, Chemist, and the Private U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

THIS JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony.

DAVID SPENCER, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

This paper may be read gratuitously in London at the Central Establishment of "HOLLOWAY'S PILLS AND OINTMENT," 244, Strand, where advertisements and subscriptions for the same are received.

The British Columbiau.

WEDNESDAY, AUGUST 5, 1868.

THE LUMBER INTERESTS.

Elsewhere will be found a brief summary of the proceedings at the meeting, on Friday evening. The people have, it will be seen, rendered their verdict; and although that verdict is couched in language so temperate as to have induced an intelligent and experienced gentleman from another community, and, therefore, unbiased by local influences, to characterize it as "provokingly mild," yet we think it sufficiently emphatic. Strong language doesn't always strengthen a cause. Everyone who attended the meeting must have been convinced of four things by no means agreeable, viz.—that the authorities have behaved in a way, in relation to the reserves in question, but too well calculated to bring the Government into disfavor, if not positive contempt; that their course of action has already inflicted great injury and loss upon two honest, industrious and deserving colonists; that such conduct is clearly calculated to discourage enterprise and retard development; and that the governing classes do not appear to have a realizing sense of their duty and responsibility in encouraging and facilitating the development of the dormant resources of the Colony. It is perfectly clear that both of the reserves about which so much ado has been made are occupied not only with the knowledge but by the permission of the Chief Commissioner of Lands and Works, subsequently recognized and confirmed by higher authority. It is equally clear that the dog-in-the-manger spirit exhibited by a certain grasping individual is at the bottom of all this contemptible persecution, that the authorities cannot claim to be actuated by a desire to protect the public interests, for the public interests lie in the contrary direction. It is painfully evident, that in this matter, private avarice pulls the wires which make the official puppets dance such an indecorous jig. Everybody in the least familiar with the history of the affair must be aware of this. The Committee appointed to lay the people's verdict before the Governor will doubtless take an early opportunity of discharging their duty, and it remains to be seen whether the authorities will still persist in carrying the case to the Court of Chancery. Should a course at once so oppressive and unwise be adopted the people will doubtless know how to act. It will, we presume, hardly be necessary to enlarge upon the particular grievances in question, in order to show that, although, in one sense, private, they have a very important and direct public bearing. Public interests are, after all, nothing more than an aggregation of private interests; and it is clear that if any one individual interest suffers, just in the exact ratio of its importance must the public interest suffer also. To allow the forest on the slopes of our outer harbour to remain in its primeval condition is to deny to the farmers and the colonists a ready market for produce and labour. Nay, more. These magnificent trees will either be metamorphosed into money by the lumberman's axe, or they will be reduced to ashes by fire! This is no hap-hazard assertion. Thousands of acres of magnificent timber land on this peninsula have already been overrun by fire, and the trees completely destroyed; and it is safe to say that were the present occupants driven off the reserves over which there has been so much disputation, nine chances to one they would be overrun by fire, and timber destroyed, which, in good hands, would be saved and made a source of wealth to the country. It may be said that what we have advanced is perfectly true; but that it forms no justification for people to go on Government reserves and set the authorities at defiance. There is no disposition to set the authorities at defiance. The people merely protest against an infringement of private rights and public interests. The particular reserves in question are, as we have said, occupied *by permission*, and the people object to a summary withdrawal of that permission, unless proper compensation be made for rights acquired and improvements made thereunder. If it be the intention of Government to withdraw all these permissions and put up timber leases to competition, then their duty is clear enough: Have existing rights and improvements properly investigated and valued, and let such value be put as an upset price to the lease. If the present occupants have the leases knocked down to them they will have their improvements. Should others become the purchasers, then will the present occupants be paid for their improvements. Such an arrangement would be fair to all parties, while it would be a simple act of justice to deserving individuals. There are some of opinion that these timber lands ought to be made a source of revenue in a more direct sense—that a substantial charge, in the form of stumpage or rental, ought to be made. With this opinion we do not concur. It must not be forgotten, in dealing with this question, that our lumber interests are already struggling under excessive taxation—contributing towards the revenue rather more largely than most other interests. It will be recollected that when the present Customs tariff was imposed, doubling, as it did, the duty upon the staple articles used in the lumber trade, it was freely admitted on all sides that it would fall with undue severity upon the lumber interests; and in order to meet that objection, the Legislative Council, while adopting a protective tariff, passed a resolution recommending that a bonus of 50 cents per thousand feet should be paid upon all lumber exported, as a sort of equivalent for the admittedly heavy taxation imposed upon that particular branch of industry. That bonus has never been paid, and the lumber business is left to struggle on under a severe tariff, and against American competition and American tariffs. Surely it is not under such circumstances as these that it would become the duty of the Government to impose an additional tax upon the manufacture of lumber. To do so would be to evince decided hostility to the development of this by no means unimportant resource. Unless some measure of relief from present excessive taxation be extended to the lumber trade it would be most unfair to exact anything more than a purely nominal fee for the purpose of maintaining the prerogative of the Crown and regulating the right of cutting. It requires the utmost economy now to enable our lumbermen to compete, if haply they can compete, with those of Puget Sound. Any additional burden would, we fear, prove to be the figurative straw that would break the camel's back. We have intimated that the governing classes have not a realizing sense of their duty and responsibility in regard to the development of the dormant resources of the Colony. Unhappily this has been too long apparent to every observant colonist. What is the history of every attempt that has yet been put forth upon the Mainland to develope a coal measure, a silver lead or a copper vein but a counterpart of the history of these disgraceful timber squabbles? Differing in details and, perhaps, in ulterior motives, these cases are much alike, in so far as illustrating the senseless incapacity of the authorities is concerned. Nor do the pernicious consequences to the public essentially differ. To-day it is the sentiment from one end of the colony to the other that the discovery or believed discovery of rich mineral veins must be kept a secret until the advent of a new law or a new Government renders a divulgeance of the discovery safe! In a new colony like this, where everybody believes in the existence of latent mineral wealth all around, can the evil consequence of such a condition of things be easily overrated?

RE OPENED.—The Central Public School was re-opened on Monday, by Mr. Hugh Burr, the Head Master.

THE undersigned hereby notify all whom it may concern that they have now perfected arrangements by which they are prepared to undertake the prompt, safe, speedy and cheap forwarding of goods from Yale to Cariboo. They have a strong train of mule teams upon the route, and possess the means of undertaking the conveyance of any quantity of freight on the shortest notice and at the most reasonable rates. Those having freighting to be done will save, in time, money and risk, by choosing this efficient and reliable medium.

J. C. BEEDY & Co.

Yale, December 9th, 1867 tc

FOR SALE.

AN excellent Farm on the Pitt River Road, within 2½ miles of the city, comprising 50 acres of excellent prairie land, covered with good grass.

Terms most liberal. For particulars apply

WM. CLARKSON.

New Westminster, May 31st 1867. jul tc

The British Columbian.

WEDNESDAY AUGUST 5, 1868.

THE PEOPLE'S VERDICT.

The public meeting, held at the Town Hall, on Friday evening, claims rather more than the mere passing notice we were enabled to accord it in Saturday's impression. The attendance was, as we said, large, and the proceedings enthusiastic, unanimous and characterized by the strictest decorum. H. Holbrook, Esq., President of the Municipal Council, occupied the Chair, while Mr. G. C. Clarkson, of the firm of Clute & Clarkson, acted in the capacity of Secretary. The Chairman explained the object of the meeting and enforced upon the public the duty of guarding and encouraging the lumber interests of the Colony. Monopoly and interference had already reached a point which threatened to turn ships in search of our unequalled spars, away from our shores, to seek cargoes on Puget Sound.

Upon motion of the hon. J. Robson Mr. Rogers and Mr. Miller were requested to make a plain and succinct statement of their grievances to the meeting, which they did, referring from time to time, to documentary and other corroborative evidence. We need hardly say that these gentlemen made out a very strong case, one which elicited repeated expressions of indignation in regard to the conduct of certain officials. They clearly established the fact that they were in occupation of the reserves in dispute, not as squatters or trespassers, but with the full knowledge and consent of the authorities, and that, did the laws of the colony enable the Government to be brought into the Courts as defendant, a strong case for damages would lie against it, as in favor of the very men who are now being subjected to the most vexatious and wanton prosecutions. After some remarks from the hon. J. Robson corroborative of the statements made by Mr. Rogers and Mr. Miller, and showing that the people were not only called upon to resist an attempt to crush and drive away two honest, industrious and most valuable colonists, but that it became their duty to stand up in defence of public rights and public interests, the following resolution was moved by Capt. Irving, seconded by Mr. W. D. Ferris, and carried unanimously:—

"Having heard the statements and explanations just made by Mr. Rogers and Mr. Miller, it is the opinion of this meeting that the course pursued by the Government with regard to the Naval Reserve on English Bay and the Military Reserve on Burrard Inlet, is not only unjust to the present occupants, but that it is highly detrimental to the public interests.

Be it therefore

Resolved: That a Committee be appointed for the purpose of urging upon the Government, either by petition or otherwise, the propriety of granting to Mr. Rogers and Mr. Miller, upon the most liberal conditions, the right to cut timber upon the Reserves at present occupied by them; and in the event of there being any insuperable objection to such a course, then to urge the justice of paying the improvements owned by these parties properly valued, and suitable compensation made for the same; and that such Committee have full power to act in the name and on behalf of this meeting."

In moving the above resolution, Capt. Irving made some very pertinent and practical remarks, both as to the evident injustice done in the particular cases before the meeting, and the more general obstruction to the development of the latent resources of the Colony.

Mr. Ferris also made some very appropriate remarks, deploring the apparent proneness of the authorities to obstruct rather than facilitate development and honest industry.

Mr. Fisher, of Esquimalt, having been requested to address the meeting, stepped forward amidst loud cheering. He said he felt exceedingly embarrassed in speaking upon the subject. Under other circumstances he might feel disposed to move an amendment to what he considered a provokingly mild resolution. A most glaring case of oppression and injustice appeared to have been made out; and it was clearly the duty of the people to enter their protest in language firm, strong, and unequivocal, and plainly declare that the poor man shall not be trodden down with impunity in British Columbia. If such cases as the present were allowed to pass, what might appear in the light of individual oppression and wrong to-day, might soon attain the dimensions of a public grievance. It was by promptly checking the first encroachment upon private rights that public rights would be most effectually guarded; and if the people did their duty in the present case with firmness and determination much harm might be averted.

Mr. Fisher resumed his seat amidst enthusiastic applause.

Hon. Mr. Robson moved the following resolution, which was seconded by Mr. Wm. Johnston, Chief Engineer, and carried unanimously:—

"*Resolved* That Capt. Irving, E. Brown, Dr. Black, Jas. Cunningham, R. Dickinson, J. S. Clute, W. D. Ferris, and the mover be appointed a Committee, pursuant to the resolution just passed, and that they prepare a petition, in accordance with the views expressed by the meeting, and wait upon the Governor with the same."

The meeting then adjourned with a vote of thanks to the Chairman.

ARRIVAL OF THE ONWARD.

The str. Onward, Captain Irving, returned from Yale on Monday evening, bringing a number of passengers and Barnard's Cariboo Express, in charge of Mr. Geo. Murray, River Messenger, with £85,000 of Bank treasure. There was also about $15,000, in private hands. Amongst the passengers were Mr. Watson, Inspector of the Bank of British Columbia, and Mr. U. Nelson, both direct from Cariboo. Mr. Nelson speaks encouragingly about the mines. We are glad to hear that William Creek Bed rock flume is promising well now. Stock in it has gone up from $5 to $12 a share. Mr. Meachem purchased some ten thousand dollars' worth of the stock a short time ago at $6 a share, consequently he has doubled his money, as stock is now held firmly at $12. A steady yield from the flume is confidently expected from this time forward. We are sorry to hear that merchandizing is again being sadly overdone in Cariboo. Goods are being retailed on Williams Creek for less than cost and charges, and there is a disposition on the part of larger traders to run out the smaller ones. It's an ill wind that blows nobody good. People will get cheap supplies; but in the long run, these overtradings, with their concomitant reactions, are an evil. Mr. Nelson informs us that the crops throughout the entire mainland, are remarkably good. There had been several days' rain in the middle country, and the farmers exclaimed "enough!" Scott's new mill at Clinton, is fast approaching completion. The Deep Creek mill will also be ready for the new wheat.

From Yale the news is unimportant. We glean the following from the *Examiner* of Monday:—About 123,000lbs of freight went forward last week. The Road Tolls collected at Yale during July amounted to $5270 23, against $3158 41, for the corresponding period last year. A thrashing machine for Messrs. Caughill & Campbell, of Cache Creek, was forwarded up last week. Mr. T. E. Ladner has sold his pack train to Mr. George Bent, and intends going into stock raising on the Lower Fraser. On Monday week a fire raged on the plateau behind Yale, endangering the town somewhat. Considerable cordwood was destroyed thereby. A two pound lump of copper, which was picked up in a Chinese gold claim at the Forks of Quesnel, is in the Kwong Lee store, at Yale. Chinese miners are commencing work on the river bars at Yale, as the water is falling. The Onward took up 80 tons of freight last week.

DISTINGUISHED VISITORS.—According to our contemporary of the *Colonist*, Victoria is about to enjoy the distinguished honor of a visit from two of the most remarkable and influential men of the age—Mr. Ralston and Mr. Halladay, of San Francisco. It is to be hoped that the Venice of the Pacific will do herself credit in entertaining these gentlemen.

THE YALE EXHIBITION.—The people at Yale appear to be fully alive to the work of the approaching Agricultural Exhibition at that place. The Executive Committee meets twice a week. The Fourth of July Committee donated the handsome sum of $102 towards the funds of the Exhibition, and the local subscription list has been handsomely opened by Mr. Charles Evans, the Chairman, and Mr. J. Reece, the Treasurer. Mr. Cornwall and others from the interior, have signified to the Committee their interest in the movement, and their intention of supporting it. This is as it should be. There could be no more healthy or hopeful sign than such movements afford, and the enterprising people of Yale deserve the best thanks and most hearty support of every wellwisher of the Colony. Mr. McRoberts and Mr. Robson have been appointed to act for this City and District, and they will be happy to receive subscriptions and afford any information.

INDEED!—The Victoria *Colonist*, in its leading article of Friday says:—"Much as we are divided just now on questions of policy, we doubt whether there is any one thing we are more divided in opinion upon than reciprocity." If our memory serves us it is not many weeks since our contemporary was preaching Reciprocity as the one thing needful for this Colony, and putting it forward as a cogent reason for immediate Confederation! What's the fellow pirouetting about now? Is he barking back upon the Confederation track? or merely coquetting with the anti-Confederation party? Such gyrations won't answer; least of all in relation to a subject of such profound importance as that of Confederation.

NO STEAMER.—Up to going to press the steamer had not arrived from Victoria. Nor had we the means of ascertaining whether she had sailed, owing to the interruption of telegraphic communication. The running of the steamer between here and Victoria is becoming exceedingly irregular of late. She arrives at all hours from 4 to 10 o'clock at night, and leaves at all hours form 4 to 10 in the morning. This is extremely inconvenient, and especially is it annoying on the present occasion when our eastern mails have been lying at Victoria since Sunday morning.

☞Our Fur Traders and Trappers in fitting out here, find Ayer's medicines one of their most profitable articles of traffic. Around Slave Lake and the wild regions of the north, the Indians know their uses and have an abiding faith in them. They say "Ayer—great medicine—cure sick man," and his remedies, for the diseases from which they suffer, will often bring forth their stock of skins even quicker than wampum, rum, or tobacco. Savages are not fools if they are unsophisticated in some of the arts of civilization.—Montreal *Pilot*.

CITY ELECTIONS.—It will be seen by reference to our advertising columns that the City elections come off to-morrow. The nomination for the Fire Department takes place at 11 a. m., and that for the Municipal Council at 12 (noon) It is to be hoped that Rate-payers generally will manifest some little interest in these elections.

MOVEMENTS OF ECCLESIASTICS.—The Rev. Mr. Hayman preached his farewell sermon at Holy Trinity Church, on Sunday, and leaves for Victoria by the next steamer. The Venerable Archdeacon Woods is expected up on Friday, permanently to reside among us. The same steamer will bring the Rev. Mr. Raynard, on his way to Cariboo.

QUICK TIME.—The *Sentinel*, published in Barkerville on Wednesday, reached here on Monday! Well done Barnard's Express.

☞DECIDEDLY cooling and delicious is Mr. Arnaud's Ice Cream—served at the Colonial every Tuesday, Friday, and Sunday.

ASHORE.—We learn that the Russian steamer Constantine went ashore at Plumper Pass, on her way from Nanaimo to Victoria, on Monday.

CARIBOO NEWS.

The last express brings us files of the *Sentinel* to the 29th ult., from which we take the following:—

MINING INTELLIGENCE.

WILLIAMS CREEK.

The following are the wash-ups for last week:—Taylor co. 65 ox.; Wilson, 131 oz.; McLaren, 41 oz.; Dutch Bill, 66 oz.; Brouse, 30 oz.; Steadman, 30 oz.; Six-toed Pete, 20 oz.; Cornish, 208 oz.; Myack, 20 oz.; San Francisco, 27 oz.; Barker, 113 oz.; Sheepskin, 60 oz., and about as much more supposed to have been robbed; Baldhead, 114 oz.; Lillooet, 40 oz.; Cariboo, 40 oz.; Raby, 21 oz; Forest Rose, 20 oz., and have just got on good pay and expect to pay well this week.

STOUT GULCH.

The Mucho Oro co. washed up for the week 94 oz.; the Jenkins co. 62 oz.; the Taffvale co. 163 oz.; and the Floyd co. 78 oz.

MOSQUITO GULCH.

The Minnehaha co. washed up for the week 365 oz.; Hocking, 194 oz.; Willow, 113 oz.; Point, 30 oz.; Discovery, 29 oz.; Holman, 18 oz.; Jeffrey, 26 oz.; Tabb co. expect to strike pay in three or four days; Ophir, 18 oz.

GROUSE CREEK.

Never-do-well, 150 oz.; Flume, 245 oz.; Full Rig, expenses; Short Bend, ground sluicing; Cascade, ground-sluicing.

The yield of the other creeks and gulches was much the same as the previous week.

We are informed that a new creek has been struck about 20 miles down Willow river, and that good prospects have been found, one piece weighing $12.

MISCELLANEOUS INTELLIGENCE.

The Road between Barkerville and Cottonwood is in a very bad condition, and if immediate repairs be not made it will become impassable. On the 23d a quarrel arose between two parties on Mosquito gulch, in regard to a water ditch, resulting in Jessie Pierce being shot through the hand with a revolver by James Knight. Knight was arrested, placed under $5000 bonds, examined before the Magistrate and committed for trial, which trial was to come off on the 29th. Rain fell on the 27th, affording a plentiful supply of water for mining purposes. On the morning of the 24th the California company discovered that their sluice box had been robbed. A Chinaman was arrested on suspicion. On the 26th the dump-box of the Sheepskin co. was robbed, while the men were at supper. Mr. Dally, the Photographer, had a narrow escape. His horse and vehicle went over a bank, falling 30 ft. into a ravine. A fatal accident occurred in Mink Gulch, on Monday morning, the 27th, resulting in the death of a colored man named George Washington. Whilst in the act of hoisting out an air pipe the rope by which it was suspended slipped, letting the pipe down directly upon the head of Washington and killing him almost instantly. Deceased was brother-in law to Mr. Dunlop, of the livery stables, Victoria. He was highly esteemed, and his death is much regretted.

HOLLOWAY'S OINTMENT AND PILLS.—Sores, Wounds, and Ulcers.—Every variety of sore, ulcer, eruption, boil, and carbuncle, is safely stopped in its destructive course by the timely application of this healing Ointment. It arrests unhealthy, and substitutes healthy action, thus curing the inflamed, irritable, and spreading diseases affecting the skin. Holloway's Ointment has gained an imperishable fame for its facility in healing old inflamatory sores about the shins and ancles, and for bad legs and old wounds it cannot be equalled; nor is it less efficacious in gathered breasts and abscesses. When the complaint has been of long continuance, Holloway's Pills will expedite recovery, if taken in those doses which act as alteratives on the stomach and tonics on the constitution.

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world! We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh; muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

Hitherto, the secret of its composition and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all sides, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. DRAKE & Co., New York, Sole Proprietors.

Redington & Co., San Francisco, Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is never certain when the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts like magic. J. W. HEWITT, Foreman for Amer'n, Wells, Fargo's & Saunden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." ED. SEELY.

Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores, @ 25 & 50cts. and $1

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROME, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

ELECTION NOTICE.

NEW WESTMINSTER MUNICIPAL COUNCIL.

I HEREBY give notice that in accordance with the provisions of the "New Westminster Municipal Council Act, 1860," and the "New Westminster Municipal Extension Act, 1861," and the "New Westminster Municipal Extension Act. No. 3, 1863."

Two Councillors are to be elected for No. 1 Ward

Three Councillors for No. 2 Ward.
Two Councillors for No. 3 Ward.
Two Councillors for No. 4 Ward.
One Councillor for No. 5 Ward.
One Councillor for No. 6 Ward.
One Councillor for No. 7 Ward.

An Election will be held at the County Court House, New Westminster, for the above purpose.

Nomination will take place at noon on Thursday the 6th day of August, proximo, and polling will commence at 12 o'clock on the following day, the 7th of August.

T. BREW,
Returning Officer.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses**, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & Co., *Practical and Analytical Chemists*, Lowell, Mass.

ADDRESS

TO THE

NERVOUS AND DEBILITATED

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED.

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, moping, tired of company, or of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. But you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in derfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in busine s; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S

FLUID EXTRACT BUCHU IS THE

GREAT DIURETIC,

AND IS

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Gorford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome *humor* in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Savoie, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Siekler, Esq., the able editor of the Punkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Stout, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S

CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhœa, constipation, liver complaints, &c., as is attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis serious to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day, and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints Incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels; a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloureaux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds.
Dropsy,	Lumbago,	Weakness from whatever cause, &c., &c.
Dysentery,	Piles,	
Erysipelas,	Rheumatism,	
	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s., 9d., 4s. 6d., 11s., 22s., and 33s., each Box.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. If is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore-throats,
Bunions,	Fistulas,	Skin-diseases,
Bite of Musquitoes and Sand-flies,	Gout,	Scurvy,
Coco-bay,	Glandular Swellings,	Sore-heads,
Chiego-foot,	Ulcers,	Tumors,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

*** There is a considerable saving by taking the large sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. dc6ly
